

Please come meet privately with **JetHead** at **CES 2016**.

We'd love to talk with you about your embedded software needs.

JetHead offers:

- Embedded C/C++ Software Services for the CE industry and Pay-TV Operators
- Linux-based STB software expertise for driver/middleware development and testing
- A portable, RVU Alliance certified, RVU client software solution, as used in:
 - DIRECTV wired & wireless Genie-mini set-top-boxes
 - Sony LED internet TV 2013, 2014
 - LG WebOS 2014 and 2015 LED-TV's
- A portable HTML5 solution, built to the DLNA VidiPath® guidelines, for cable-ready TV
- JetHead "Harmony Architecture", for faster time-to-market RVU and VidiPath solutions
- JetHead "Cloud Browser" technology, for deploying advanced HTML5 based applications to CE and STB platforms, including legacy and low-performance platforms
- Integration expertise with all major STB silicon vendors
- Integration expertise with STB middleware: [SoftAtHome](#), [Cisco](#) & [DIRECTV](#)
- Integration expertise with satellite, cable, IPTV and Smart-TV platforms

Where to find us:

Meeting Place [MP25282](#), South Hall 2, Lower Level, LVCC. [Map here](#).

When:

Wednesday	January 6 th , 2016	10:00 - 18:00 pm
Thursday	January 7 th , 2016	09:00 - 18:00 pm
Friday	January 8 th , 2016	09:00 - 18:00 pm
Saturday	January 9 th , 2016	09:00 - 16:00 pm

For an appointment, please contact:

David Bye VP Marketing and Business Development
Phone: +1 858-722-7715 (cell)
E-mail: dbye@jetheaddev.com

About JetHead Development:

JetHead Development, a California-based private company, headquartered in Carlsbad, is the leading developer of RVU-compliant server and client software technology. JetHead specializes in the development, testing and integration of embedded software for the consumer electronics market. We are proud members of CTA, DLNA, UPnP Forum, DTLA and the RVU Alliance.
